

I currently listen to the K-LOVE translator station 104.3 FM Cincinnati, Ohio and I wish to express the importance of this station to me and thousands of other listeners across the country.

K-LOVE supplies many services to each community it broadcasts in. Throughout the day, I can stay informed of national and domestic news as well as community services in Cincinnati, Ohio. If K-LOVE were displaced by your current plan of LPFM priority, it would have a detrimental effect of thousands of communities that listen to this station via translator stations, like 104.3. K-LOVE is broadcast in California and then brought to over 40 states locally. They are financially supported by ALL of these listeners across the country and this station would not be able to function if LPFM's would overpower them. So giving these LPFM's priority over translator stations like K-LOVE would NOT be in the interests of the public's communication needs. K-LOVE's mission is to be positive and encouraging to its listeners and I would encourage you to KEEP this great service available because of the many good things it does.

Thank you for your time and consideration.

Sincerely,

Anne C Michels
